A New Way of Learning

Here at CloudLearn we believe that learning should fit around your schedule, not the other way around. In today's world your smartphone can do almost everything, but have you ever considered you could study an entire A-Level course on this clever little device? Increasingly people are finding it more challenging to fit work commitments around their education, one often suffers as a result.

However, by delivering learning, assessments and support online, it is a lot easier for students to manage their workload as well as learn wherever and whenever they like. Studying with CloudLearn will better prepare you for the transition to independent learning commonly found at universities across the UK.

One of the main criticisms coming from universities and colleges is that students leaving school to pursue higher education often lack the independent learning skills needed to succeed within their chosen course. Our methods of learning address this concern by giving students more tools which they can use to study independently at their own pace.

Moving from a more teacher-directed environment to a learner-centric environment is what we are all about. Don't worry though, a dedicated and experienced tutor is assigned to you on enrolment. So should you come across any hurdles, your tutor will be able to help guide you and overcome them.

Is This the Same Qualification I Would get at School?

It sure is. Regardless of how or where you study, the qualification will always be the same.

You will sit the same exam as thousands of students across the country, and achieve the same qualification as everyone else. GCSE qualifications are recognised by the world's best universities and employers, giving students a wide range of options in their education and career.

Remember, GCSEs are often used to determine if you are suitable for a university course. Most university course admissions look for at least C grades in English, Maths and, sometimes, Science.

Fast-track Your Learning

Patience is a virtue, or is it? Sometimes you need a certain grade 'yesterday'. However, until they invent a time machine, Fast-tracking is your next best option. Depending on which course you choose to study, each will have a recommended amount of guided learning hours. This is the minimum amount of study time recommended for the course in preparation for the exam.

It is easier to visualise how Fast-tracking works with an example. Any GCSE course undertaken has a recommended 120 guided learning hours. Breaking down a 120 hour course into 4 weeks, you would need to be able to commit to 30 hours per week of studying. It is entirely up to you the amount of time you can commit to studying.

Do remember though that depending on the examination you will be sitting, you may be restricted to when you can sit your exam. IGCSE examinations for example, are held twice a year in May/June and Oct/Nov whereas the standard GCSE examinations can only be taken in May/June. It is recommended that you aim to book your examinations 6 months in advance. Additionally, we would advise that you contact a few exam centres and find out the best price.

We offer 12 month and 24 month tutor support depending on which course you take. So if you do change your mind about Fast-tracking a course, you can take it at a slower pace and still use the tutor support should you ever need it. With this flexibility, in the unfortunate event you ever fall ill, have a change of circumstances or go on holiday we can put your studies on hold for as long as you like. Just let us know when you want to continue studying and we can reactivate your account!

We took our son out of private school due to his grades being around 40% and enrolled him on CloudLearn IGCSE Maths, English and Physics. Within a year he achieved 3 A grades. We found the courses well-structured, engaging and packed with practice assessments. The tutor responded quickly and was always able to keep our son focussed and motivated. I would highly recommend CloudLearn, especially since they are the only company to offer a guaranteed pass.

New 9-1 Grading Explained

We appreciate that the move from an A* to G GCSE to a 9-1 grading scale is a significant change. To support you through the transition, the diagram on the right is a good starting point in terms of understanding how the new scale maps to the existing A*-G grading structure.

- ✔ The bottom of grade 1 will be aligned with the bottom of grade G.
- ✔ Grade 5 will be positioned in the top third of the marks for a current Grade C and bottom third of the marks for a current Grade B. This will mean it will be of greater demand than the present grade C.

Taking your exam at one of our affiliated centres could save you hundreds of pounds, not to mention the hassle in locating a centre in your local area.

Take the stress out of exam time. Bundle the cost of your exams when you enrol and spread the cost using one of our payment plans.

If you want us to arrange your exam you will need to give us at least 6 months notice. We can only guarantee prices at our Belfast, Bolton, Birmingham, Coventry, Doncaster, High Wycombe, London, Middlesex, Romford, St Neots and Taunton centres. Other centres are available but exam fees will vary.
